

Stories That Inspire

TEMBO English Camp

Launched in 2010, the TEMBO English Camp (TEC) is a 3-week program for TEMBO sponsored girls, Form 1-6. This year, the camp is running from June 15th to July 3rd, with **more than 130 girls present!**

Coordinated by TEMBO Tanzania, TEC provides the girls with an opportunity to review core subject materials with local secondary school teachers, develop their language skills, and build their confidence as they continue their studies in school.

This summer, two former TEMBO girls are now working as Teaching Assistants. Hanna and Salome just finished Form 6 (advanced level secondary school studies) in May, and they are now applying for university.

Hanna says that her goal while working at TEC is to improve the "academic status of the students". She explains that thanks to her previous experience with TEMBO, she has been able to connect with the girls and is "familiar with the environment". Hanna expresses her gratitude to TEMBO for supporting her own academic journey and doing the same for other students.

When talking about her experience with TEC so far, Salome says that she is grateful for the things she has learned from the students. Simultaneously, she appreciates the chance to pass on her knowledge and help the girls "overcome the different challenges they face". Salome encourages TEMBO to continue "supporting and empowering the girls in their studies".

We Mean It: Every Step Counts

This May, during our TEMBO Challenge, our supporters got out and biked or walked and asked their friends to contribute to the work TEMBO supports in Longido.

Clarrisa was still recovering from a broken ankle, so she set a goal to walk to the corner of the street and back for 10 days straight. Her steps counted for over \$1000!

Indigo, the chihuahua, supervised Liz and Hashim as they biked for 50km over 10 days and his steps counted for over \$600.

"Just the two of us", a small but mighty team who have visited Longido to see the work that is transforming lives, counted for over \$1500.

Some raised \$32, or \$64, or \$100, but just like each step builds to a kilometer, every dollar builds to a more dignified world.

To everyone who took the steps in the direction of a better, more just world, Thank-You!

Altogether, **you helped us raise almost \$11,000!** All of which will go to supporting the girls: shoes to carry girls to school, books to inspire for reading circles, nutritious meals to fuel the girls in academic support programs, and sewing materials to launch women into business.
